July 14, 2010

Metropolitan Sewer District Board of Trustees  
c/o Ms. Pam Bell  
2350 Market Street  
St. Louis, MO 63103

This is to request that the St. Louis Council of Construction Consumers (SLCCC) be designated for a representative on the MSD Rate Commission. This request is made in collaboration with the Missouri Growth Association (MGA). Thus, the person designated would be representative of both organizations for the Owner / developer / commercial real estate community.

The SLCCC is an Owner organization which provides leadership to improve value, quality and safety in the efficient delivery of capital facilities and maintenance by the St. Louis design and construction industry. Owner members are major purchasers of construction services for capital construction, renovation and maintenance in the developer, health care, industrial, institutional, public and utility sectors. In addition, the Council has over 100 Associate members from contractors, design professionals and related organizations serving the Owner community. Attached is a member roster.

Thus, members represent a significant cross section of major customers of the MSD and we look forward to assisting the District with development of fair and equitable rates. Jointly with the MGA, we welcome the opportunity to provide the perspective of the Owner / developer / commercial real estate community on the Rate Commission.

Yours truly,

Dennis Lavalley, CAE  
President
