MSD Energy Savings Projects

Over the last several years, through 46 completed projects around the District, we have saved 6,467,815 kWh totaling \$331,542 in energy saving incentives utilizing rebates and operational energy savings.

Projects Undertaken Examples:

- Replacing inefficient lighting, deteriorated wiring, and outdated fixtures around the District with LED replacement lamps, updated circuits and fixtures.
- Replacing Channel Air Blowers with High Efficiency blowers.
- Numerous energy efficient operational changes throughout the District, such as, replacing manual controls with automated controls; exhausting motors outside to reduce cooling demand in A/C cooled areas; and occupancy sensors for room lighting.

The District currently has 4 active incentive projects in progress with potential savings of 945,260 kWh totaling \$61,142.
